- Framer Motion
- GSAP (GreenSock Animation Platform)

- Redux
- Redux Thunk
- Redux Saga
- Redux Persist for saving state in LocalStorage.
- Zustand-https://zustand-demo.pmnd.rs/
- RTK
- AXIOS
- WordPress Blog Development with ACF Plugin

EDUCATION

Lviv National Medical University
Specialization: Surgery, Orthopedics
Degree: Doctor
Year of Graduation: 2010-2019

Web Development Training SoftServe
Duration: December 2019 - December 2019
Description:
 The course focused on the fundamentals of web development, including the use of basic semantic HTML tags, and foundational knowledge of CSS for styling and JavaScript for interactivity. We learned how to structure web pages using semantic elements, style them with CSS, and add functionality with JavaScript to create interactive web experiences.

Web Development Training at OktenWeb
Duration: July 2021 - January 2022 (1 year)
Description:
 This year-long training focused on building complex web applications using React, Redux, and HTTP requests. We learned how to develop scalable and maintainable systems by integrating React for building user interfaces, Redux for state management, and working with APIs using HTTP methods. The course also covered various advanced libraries for managing side effects (like Redux Thunk and Redux Saga), as well as techniques for handling dynamic data and optimizing performance.

Selection Course at JetSoftPro
Duration: 3 months
Description:
 The selection course at JetSoftPro was an intensive 3-month program where we were fully immersed in the company's technology stack. We worked on real-world projects under the guidance of mentors, applying modern development practices and technologies. Throughout the course, we used the latest tools and frameworks, gaining hands-on experience and refining our skills in a professional setting. At the end of the course, the best performers were selected to continue with the company, based on their technical abilities and collaboration skills.
